EIGHTY-SECOND ANNUAL REPORT OF THE COLUMBIA INSTITUTION FOR THE DEAF

COLUMBIA INSTITUTION FOR THE DEAF,

KENDALL GREEN,

Washington, D. C., August 31, 1939.

Sir: During the fiscal year July 1, 1938, through June 30, 1939, there were under instruction in the advanced department of the institution, known as Gallaudet College, 90 men and 61 women, a total of 151, representing 38 states and the District of Columbia. This is an increase of 17 as compared with the preceding year.

In the primary and grammar department, known as the Kendall School, there were under instruction 35 boys and 42 girls, a total of 77. This is an increase of 4 as compared with the preceding year. Of the total in this department, 71 were admitted as beneficiaries of the District of Columbia.

There were admitted to the institution 30 males and 25 females; discharged, 24 males and 17 females.

HEALTH

There was little illness among the students and the pupils during the year. In two cases, appendicitis was discovered and successful operations were performed. There were no serious contagion of any type. The policy of required physical examination, physical exercise, inoculation against typhoid, diphtheria, and scarlet fever was continued. The milk supply furnished the students and pupils during the year was carefully supervised and checked weekly for bacteria.

COURSES OF INSTRUCTION

The course of instruction for the past year was continued practically without change. However, a committee was appointed to study the whole matter of the curriculum and a considerable change of schedule, allowing more election in study, will probably be provided for the

following year. It is hoped to give more opportunity for both theory and practice teaching to the deaf students of the college department in their senior year.

NEEDS OF THE INSTITUTION

The institution as equipped at the present time can comfortably take care of approximately 75 pupils in the Kendall School and 165 in the collegiate department, or a total of 240. This maximum for comfort was almost reached during the fiscal year just ended and will be somewhat exceeded in the coming year. Classrooms are crowded and not sufficient in number. Facilities for teaching of library work, printing, bacteriology, and physics are very poor.

As has been reported before, the printing office is housed in basement rooms; the library is used by both sexes, but at the present time has to be located in the men's dormitory on the second floor.

Almost \$70,000 is available, in the hands of our treasurer, toward the erection of a modern fireproof building to contain the printing office, the library, new laboratories and recitation rooms. Sufficient additional funds to construct this building have been approved by the Secretary of the Interior for a number of years past but have not been agreed to by the Budget Bureau. No new buildings have been provided for the growth of the institution for over 20 years. In this period the number of students in the collegiate department has increased over 30%. A library and recitation building should be provided for immediately to relieve the conditions described.

There is need, also, for an addition to the gymnasium for expanding physical training requirements, an extension of the old laboratory building, and new units for the Kendall School dormitories and class rooms. There should also be provided two more cottages for the married instructors, to be built on the grounds of the institution.

RESEARCH WORK

During the past year equipment for testing hearing and eyesight has been purchased, and a considerable amount of experimental work in testing our own pupils and students has been done. Study has been made of both the native ability and educational achievement of our students, and one state institution for the deaf has been visited by members of this research department, surveyed, and recommen-

dations made in regard to the curriculum and other important matters. I believe that our research department will be able to do valuable work in advancing the education of the deaf in this country.

SPECIAL GIFTS

A gift of \$4,000 from a group of women alumni, the income of which shall be used for scholarships, has been received during the year; also a gift from Mrs. Charles R. Ely of \$2,000, for the establishment of scholarships in memory of her husband, Dr. Charles Russell Ely, who was vice-president of the institution and who died during the year after many years of splendid service.

SEVENTY-FIFTH ANNIVERSARY

During this year the seventy-fifth anniversary of the institution's higher department, Gallaudet College, was celebrated in various ways. The students took part in special services on December 10, the birthday of Thomas Hopkins Gallaudet, the founder of education for the deaf in this country. On February 5, the birthday of Edward Miner Gallaudet, the first president of Gallaudet College, the students also presented a striking program. A radio description of the collegiate department and its work was delivered by the president of the institution on April 8, the anniversary of the signing of the charter of Gallaudet College. Special delegates were invited for commencement day, June 3, to take part in the exercises. Nearly 100 colleges and learned societies were represented on this occasion by delegates.
